

The chart below reflects LWP’s WIOA Formula Fund Revenue over the past five fiscal years with the first three years showing the actual amounts received, the budgeted amount for 2024-2025 and our estimate for 2025-2026. The estimated funding is based on the WIOA Planning Estimates in TEN 17-24 which reflect a decrease of 10% in every category to the State of Oregon. As a result, LWP is being very conservative in our WIOA projections. LWP is committed to seeking additional funds to support the needs of our community, which may increase these estimated funding levels over time.
